URBANICE MALAYSIA

October 2017

Sustainable Development Goals

Transforming our world: the 2030 Agenda for Sustainable Development is a set of 17 aspirational "**Global Goals**" with 169 targets

SUSTAINABLE DEVELOPMENT GOALS

17 GOALS TO TRANSFORM OUR WORLD

World's Urban Population is Growing

54% (3.5B) of the world's population now lives in cities and this continues to grow at 73 million yearly.

42% of cities has more than 1 million population

7 out of 10 World's Largest Urban Areas are in Asia (2013) and Asia's urbanization is 48% (2015)

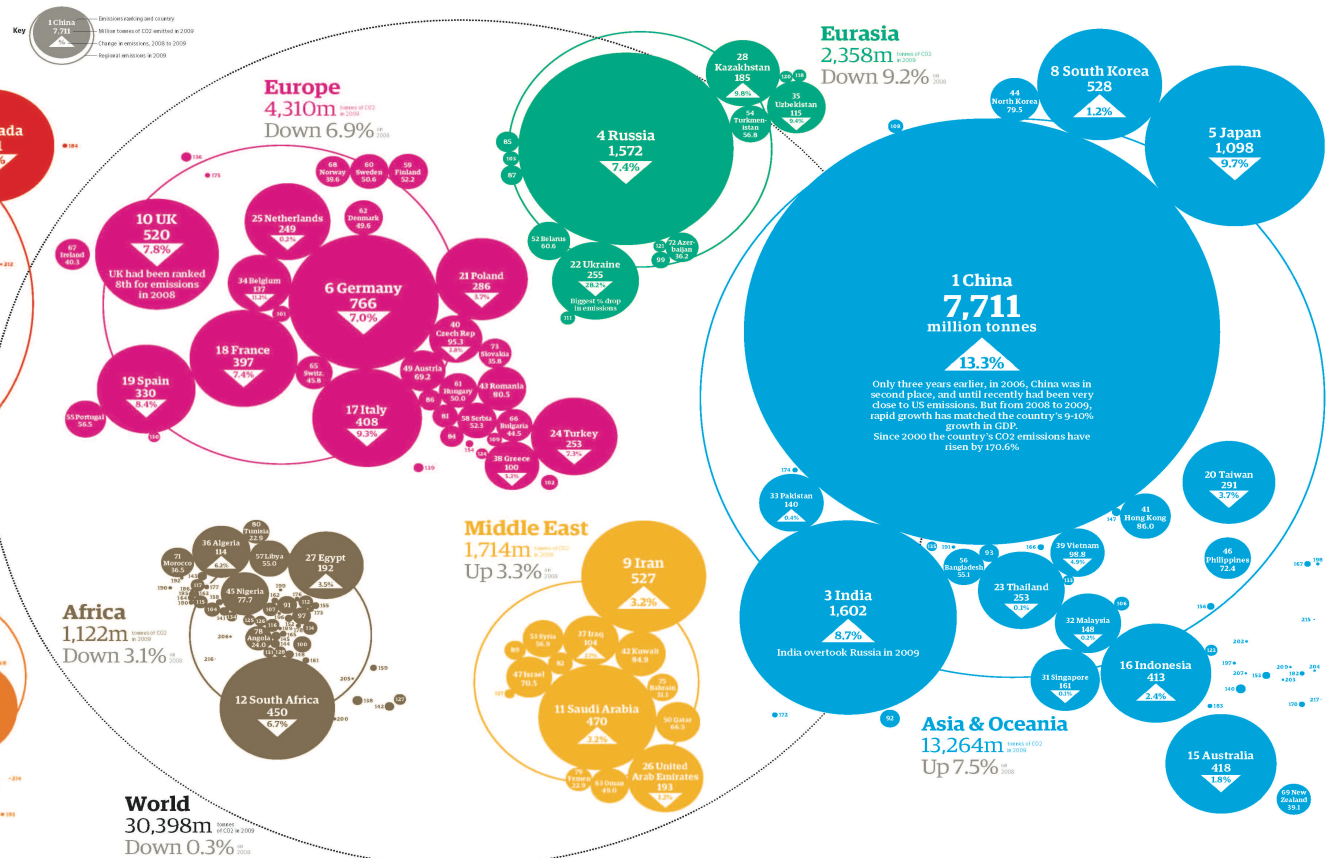

Concerns on Climate Change

Urbanisation & Carbon Emission

An atlas of pollution: the world in carbon dioxide emissions

Latest data published by the US Energy Information Administration provides a unique picture of economic growth - and decline. China has sped ahead of the US, as shown by this map, which resizes each country according to CO2 emissions. And, for the first time, world emissions have gone down

Habitat III

Habitat III is the first major UN Summit after the adoption of some key global commitments.

Voluntary non-binding agreement between member States to reduce disaster and losses of lives, livelihood and health and in the economic, physical, social, cultural and environmental assets or stakeholders.

Adis Ababa Action Agenda – A Global Partnership for financing sustainable development post 2015. Goal is to end poverty and hunger, and to achieve sustainable development in 3 dimensions through promoting inclusive economic growth, protecting the environment, and promoting social inclusion.

Focus Areas : Technology, Infrastructure, Social Protection, Health, Micro and Medium Enterprise, Climate Change & Foreign Aida

NEW URBAN AGENDA

Adopted in Quito, Ecuador on the 20th October 2016.

An action-oriented document which sets global standards of achievement in sustainable urban development, by readdressing the way cities and human settlements are planned, designed, financed, developed, governed, and managed, through cooperation with committed partners, relevant stakeholders, and urban actors at all levels of government as well as the private sector and in supporting the implementation of the 2030 Agenda.

**EMBRACE URBANIZATION AT ALL
LEVELS OF HUMAN SETTLEMENTS**

**INTEGRATING EQUITY TO THE
DEVELOPMENT AGENDA – SUSTAINABLE
& EQUITABLE CITIES**

CITIES ARE FOR ALL :
Leave No One Behind
Sustainable and Inclusive Urban Economies
Environmental Sustainability

SDG 11 : SUSTAINABLE CITIES & COMMUNITIES

MAKE CITIES & HUMAN SETTLEMENTS SAFE, RESILIENT & SUSTAINABLE

KEY TARGETS - By 2030 :

- 11.1 Ensure **access to adequate, safe and affordable housing and basic services and upgrade slums**;
- 11.2 Provide **access to safe, affordable, accessible & sustainable transport systems & improving road safety for all**;
- 11.3 Enhance **inclusive & sustainable urbanization, capacity for participatory, integrated & sustainable human settlement planning & management**;
- 11.4 Strengthen efforts to **protect and safeguard the world's cultural and natural heritage**;
- 11.5 **Reduce the no. of deaths & the no. of people affected** and substantially decrease the direct economic losses relative to global GDP caused **by disasters**, i.e. water-related disasters, with a focus on protecting the poor and people in vulnerable situations;
- 11.6 **Reduce the adverse per capita environmental impact of cities**, i.e. air quality, municipal and other waste management;
- 11.7 Provide **universal access for all to safe, inclusive and accessible, green and public spaces**;

SDG 11: Means of implementation

- Strengthening national and regional development planning
- Integrated policies and plans (inclusion, resource efficiency, mitigation and adaptation to climate change, resilience)
- Sustainable and resilient **buildings** utilizing local materials

URBANIZATION

Malaysia became an urban nation in 1991 when 50.4% of population lives in urban areas

POPULATION MALAYSIA

- 24 million (2002), 28 million (2010)
- 31 million (2017)

URBANIZATION RATE FOR MALAYSIA

- 33.5% (1970), 77% (2017)
- To grow to 78.9% by 2020

MALAYSIA'S FUTURE CHALLENGES

A new challenge is meeting the social needs as by 2040, the population structure shall change significantly.

Year 2010

28.6 million
People

7.9%
Aged population

29.9%
Youth population

67.7%
Working population

6.4 million
Total Households

4.3
Average household
size

1970 – Household size was
5.5

Year 2040

41.5 million
People

19.8%
Aged population

20.7%
Youth population

66.9%
Working population

10.1 million
Total Households

3.8
Average household
size

MALAYSIA'S URBANIZATION

Malaysia faces critical transitions in Urbanization

HOUSING GAPS

- Meeting the right income needs
- Locations of Affordable Homes

URBAN FLOODS

- Urban Drainage
- Water catchment management

URBAN WASTE

- 1.2 kg/capita/day – 18,000 tonnes/day
- 64% of waste are urban waste
- 80% are household waste

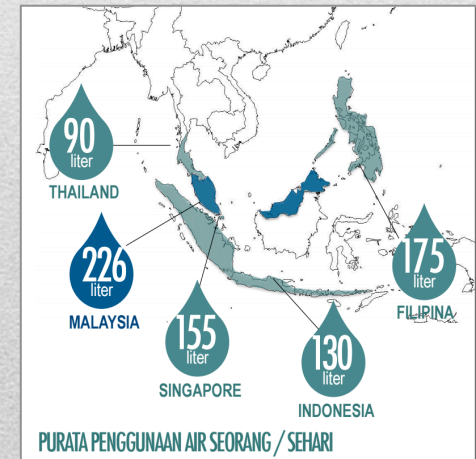

TRAFFIC CONGESTIONS & URBAN MO

- High CO2 emission
- Quality of Life

URBAN HEAT

- Hotter areas in cities
- Comfort level

MANAGING WATER CONSUMPTION

IMPLEMENTING THE NEW URBAN AGENDA TO ACHIEVE THE SDG'S

An urbanization action blueprint for UN-Habitat and our partners in government, the UN, civil society, communities, the private sector, professionals, the scientific and academic community, in support of the 2030 Agenda on Sustainable Development; especially SDG 11 - making cities inclusive, safe, resilient and sustainable.

LOCAL
IMPLEMENTATION

3 Transformative Commitments

Urban Prosperity

Inclusive and sustainable economic growth, with full and productive employment and decent work for all, is a key element of sustainable urban development where can people live healthy, productive, prosperous, and fulfilling lives.

Environmentally Sustainable

Unsustainable consumption and production patterns, loss of biodiversity, pressure on ecosystems, pollution, natural and man-made disasters, and climate change and its related risks, undermine efforts to end poverty and to achieve sustainable development.

Social Inclusion

Development must protect the planet and enable all inhabitants, whether living in formal or informal settlements, to lead decent, dignified, and rewarding lives, and to achieve their full human potential.

2 Effective Implementation

Governance Structures

The NUA is anchored in participatory urban policies that mainstream sustainable urban and territorial development as part of integrated development strategies and plans, supported by institutional and regulatory frameworks linked to transparent and accountable finance mechanisms.

Spatial Development

Balanced territorial development that accounts for different scales of cities and human settlements, strengthens their role in food security and nutrition systems, puts housing at the centre, builds infrastructure and services, facilitates trade, and connects farmers and fishers across value chains and markets.

The New Urban Agenda and Malaysia/Asia

- The New Urban Agenda is **timely and good for Asia and Malaysia** especially as most nations and cities are developing rapidly.
- At the same time it is also **very challenging** as they balanced the rapid demand for growth and development to meet local needs with the implementation of the New Urban Agenda.

**NATIONAL, REGIONAL, STATE
POLICIES**

Aligning and connecting National Urban Policies with Regional and State policies. Policies should be more outcome oriented with key targets and clear implementation strategies.

LOCAL ACTIONS

City/Local Governance Role Crucial in New Urban Agenda.

- New Action Plans
- New Urban Rules and Regulations
- Innovative Urban Planning and Design

ROLE OF NATIONAL PLANNING AGENCIES

Align and connect National Urban Policies with Regional and State policies.

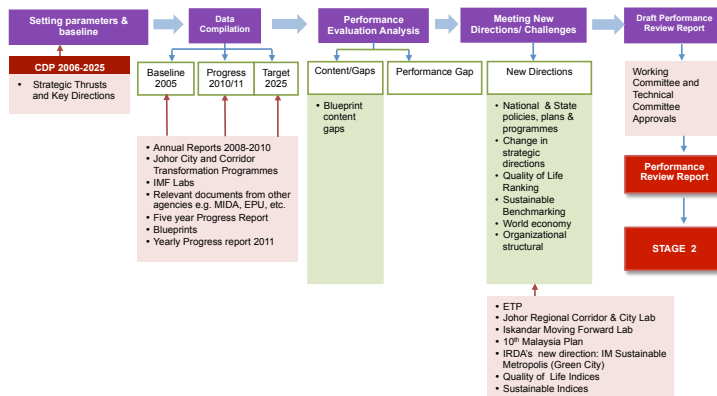

There is a need to adopt an integrated planning approach and a more flexible planning document to address urban resilience and the new urban agenda.

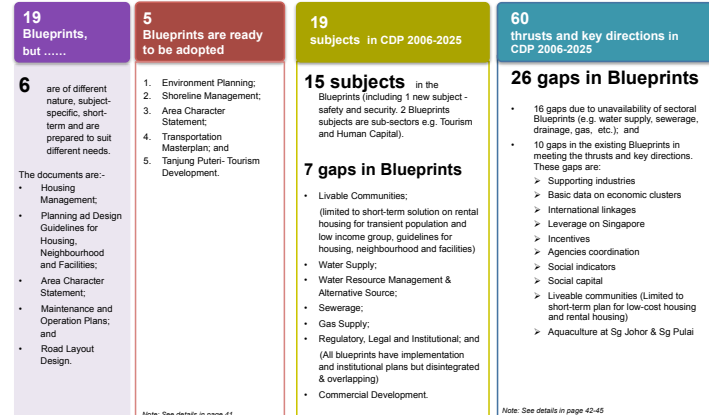

The need to evaluate and access performances

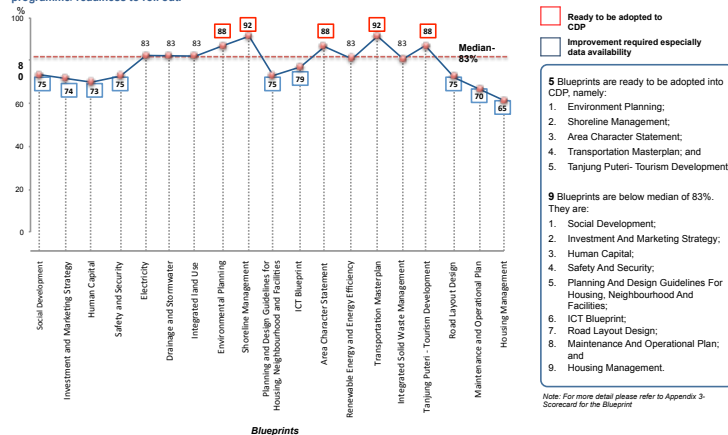

Performance Evaluation is the first stage of CDP Review process which aims to assess the gap and the success of CDP and Blueprints implementation. The Performance Evaluation also sets the framework for the preparation of form and content for the revised CDP.

Of the 19 blueprints evaluated, 6 are categorised as non-blueprint (either guidelines or short-term implementation programme) and 5 blueprints are comprehensive in-terms coverage, therefore are readily to be adopted into the Revised CDP without requiring extensive study.

19 Iskandar blueprints have been evaluated to identify their content gaps. 5 main elements has been considered in the analysis including addressing relevant CDP strategic thrusts, objectives of blueprint, comprehensiveness of coverage, data availability, sustainability and programme/ readiness to roll out.

ROLE OF NATIONAL, REGIONAL & STATE PLANNING AGENCIES

Evaluate and Access Performances

PUBLIC PERCEPTION SURVEY was conducted as part of performance evaluation process

Business Operations

8. Type of commercial activities

a) Retail Trade	b) Wholesale/ Distributor	c) Real Estate
d) Restaurant	e) Hotels	f) Communication
g) Constructions	h) Finance	i) Insurance
j) Professional services	k) Social and Personal Services	l) Food Processing
m) Personal Services	n) Informal	o) Fabricating Works
p) Supporting Transport Services		

9. Ownership/Structure

a) Sole Proprietor	b) Partnership	c) Private Limited
d) Government-Owned/Linked	e) Public Listed	

10. Equity

a) Local 100%	b) Foreign 100%	
c) Other Equity Combination (Please indicate)	Local: ____%	Foreign: ____%

11. Ownership

(a) Bumiputera	(b) Non-Bumiputera
----------------	--------------------

12. Paid Up Capital

RM _____

13. Annual Revenue

(a) Estimated Annual Revenue (past year): RM _____

(b) Estimated Operational Expenses (past year): RM _____

14. Market

a) Local 100%	b) Foreign 100%	
c) Other Equity Combination (Please indicate)	Local: ____%	Foreign: ____%

15. Has your company adopted the following green technology over past 3 years?

a. Energy saving technology	
b. Water saving technology	
c. Waste Management	
d. Production (green technology)	
e. Others (specify): _____	
f. None of the above	

Q5. Apakah tahap kepuasan anda terhadap perkara berikut?
What is your level of satisfaction of the following?

	Tahap Kepuasan (Level of Satisfaction)				
	1 Sangat Tidak Puas (Very Dissatisfied)	2 Tidak Puas (Dissatisfied)	3 Sedang (Average)	4 Sangat Puas / Very Satisfied	5 Sangat Puas / Very Satisfied
Hiburan (Teater, panggung wayang) / Entertainment (Theatre, cinema)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Kawasan rekreasi, taman / Recreational area, parks	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Kemudahan aktiviti luar / Outdoor facilities	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Restoran / Restaurant	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Pusat membeli belah / Shopping Mall	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Perpustakaan / Library	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Pusat seni dan persembahan / Art and performance centre (Art Gallery Johor, Ctrawarna)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Q6. Apakah yang menjadi keutamaan untuk anda berdasarkan perkara-perkara yang berikut?
What is your priority according to the following list?

	1	2	3	4	5
A. Hiburan (Teater, panggung wayang) / Entertainment (Theatre, cinema)					
B. Kawasan rekreasi, taman / Recreational area, parks					
C. Kemudahan aktiviti luar / Outdoor facilities					
D. Restoran / Restaurant					
E. Pusat membeli belah / Shopping Mall					
F. Perpustakaan / Library					
G. Pusat seni dan persembahan / Art and performance centre (Art Gallery Johor, Ctrawarna)					

ROLE OF LOCAL GOVERNMENT

Local Government must play a proactive role in promoting the New Urban Agenda.

LOCAL ACTIONS

New Action Plans

- Implementation Strategy & Plan that has a multi-stakeholder process
 - Quick wins

New Urban Planning

- New Urban Rules and Regulations
- Innovative Urban Planning and Design

KEY STAKEHOLDERS OF THE CITY

Multi-stakeholders

- Identify them
- Collaborate Closely
- Engage and Empower

02

URBAN LEGISLATION RULES AND REGULATION

6 KEY ACTION POINTS

Rules and regulations that provide a transparent legal framework for urbanisation

03

URBAN PLANNING AND DESIGN 6 KEY ACTION POINTS

Well-planned and designed urban areas which add to quality of life

04

URBAN ECONOMY AND MUNICIPAL FINANCE

6 KEY ACTION POINTS

Viable municipal financial models that sustain urban functions and encourage economic prosperity

05

PLANNED CITY EXTENSIONS /PLANNED URBAN RENEWALS

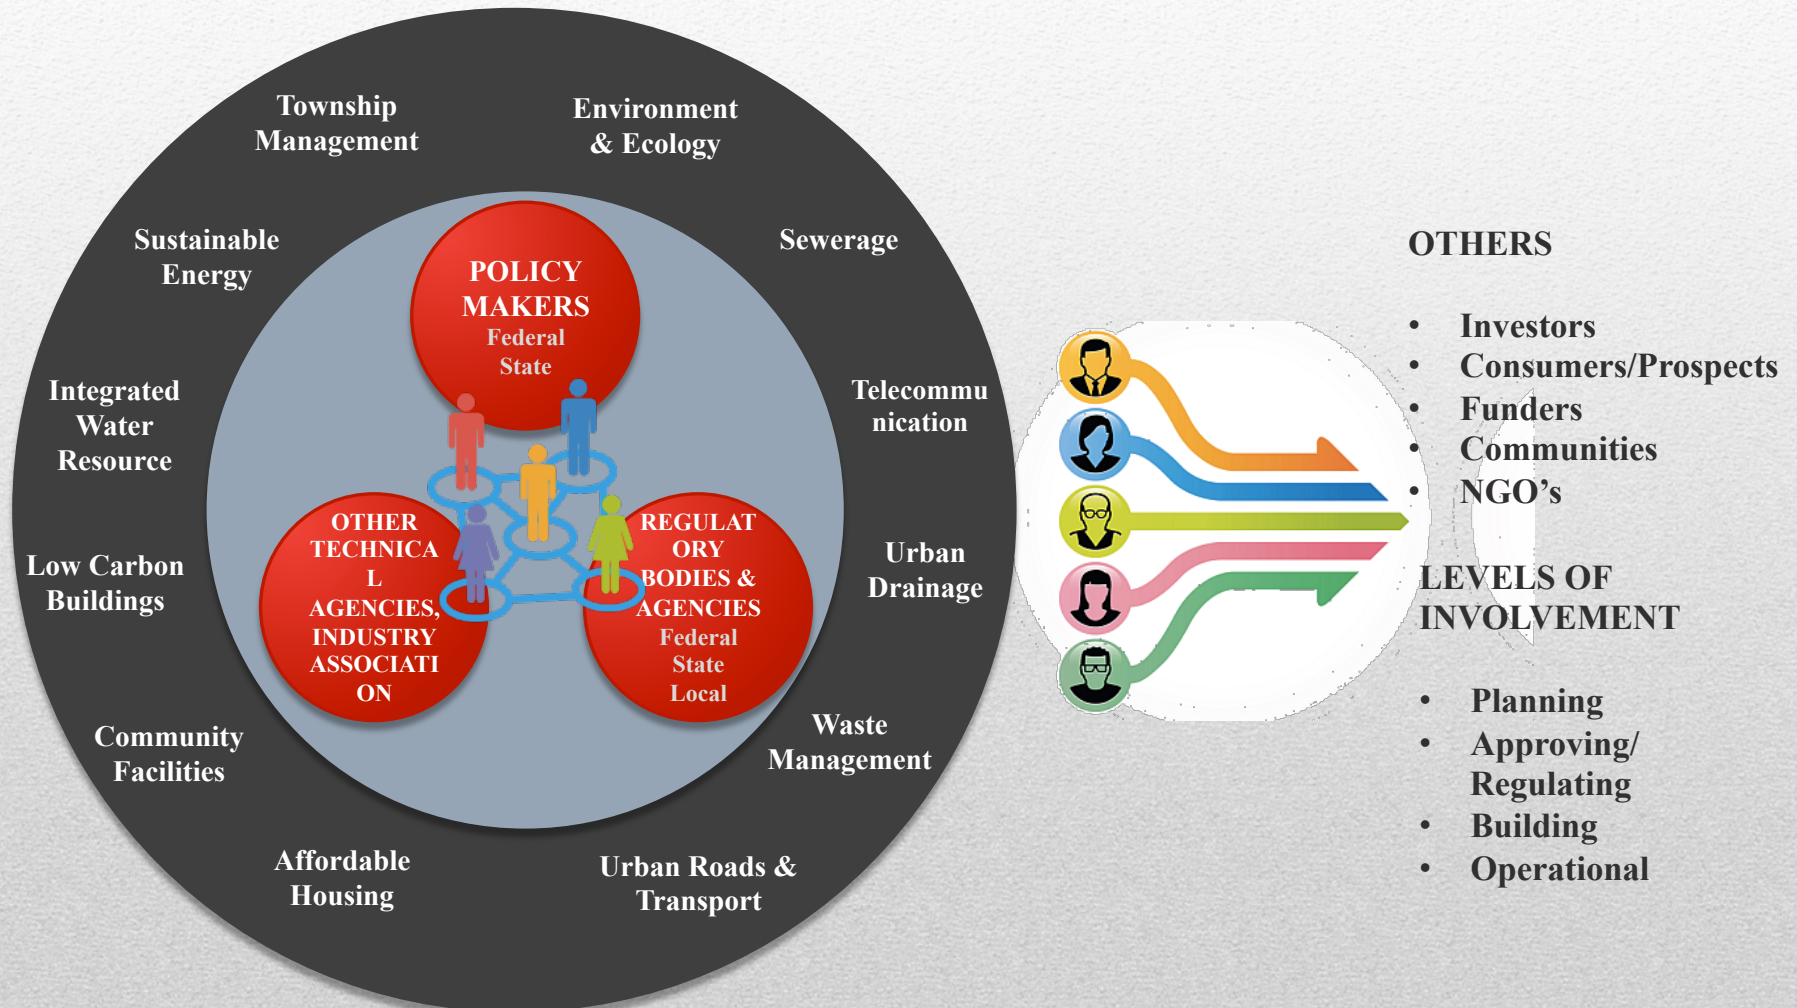

6 KEY ACTION POINTS

Planned city extensions and planned city infills that grow a city in a manageable way

STAKEHOLDERS MAPPING

Stakeholders for the various development components involves various key players that at the various levels of government.

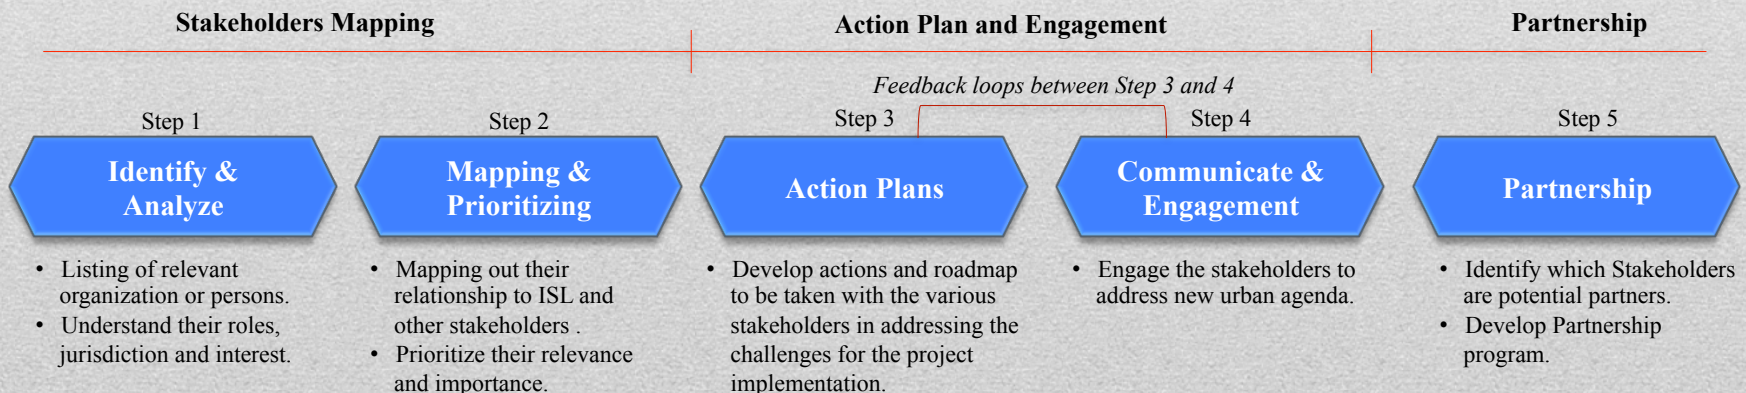

STAKEHOLDERS MANAGEMENT

Stakeholders management is an important process in a sustainable urban development. It helps to manage change, resolves conflicts and contribute towards effective project implementation.

The Process

5 key steps that can be undertaken:

ROLE OF COMMUNITIES : COMMUNITY ACTION PLANS

To encourage communities to develop Neighbourhood Action Plans to encourage proactive and responsive communities that decides upon actions that would enhanced their well-being

Develop local capacity building to educate and empower communities to develop their own action plans.

**NEIGHBOURHOOD
COMMUNITIES**

**COMMUNITY ACTION
PLAN**

**LOCAL PLANNING
AUTHORITY**

**LOCAL AREA
STATUTORY
BLUEPRINTS**

**MANAGEMENT
IMPLEMENTATI
ON & BUDGET
PLAN**

Assist Local Government in preparing statutory planning documents as well as provide inputs towards the City's management and budget plans.

**COMMUNITY VISION
SHARED VISION**

COMMUNITY ACTION PLAN

TODAY'S COMMUNITY

ACTIONS

**CHANGE
SCENARI
O**

TRENDS

**Data on
Community,**

**Facts &
Statistics**

**Issues,
Potential &
Resources**

**Needs &
Priority**

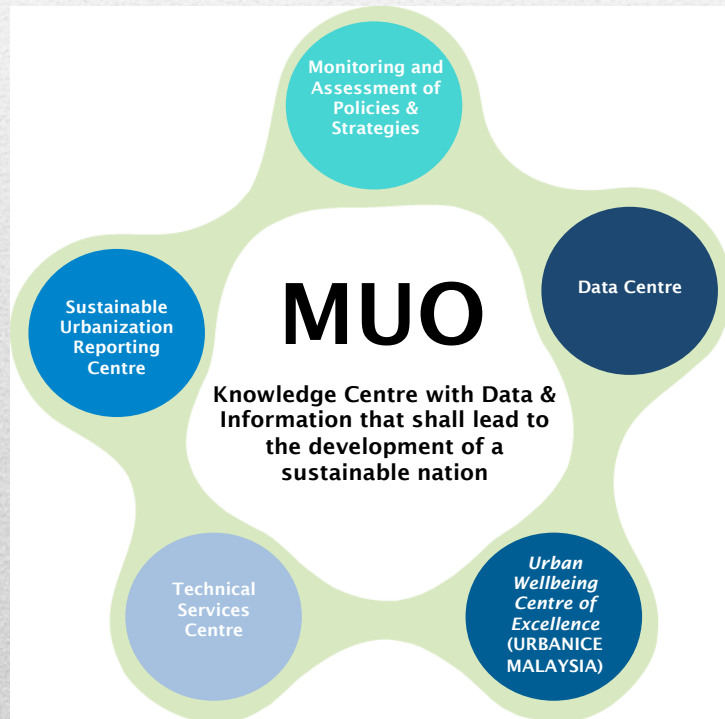

KNOWLEDGE SHARING PLATFORM

Reinventing the 'Urban Observatory' into a Comprehensive Knowledge Sharing System to innovate new urban solutions to address urbanization.

The Malaysia Urban Observatory model transform existing systems and create a new platform of integration.

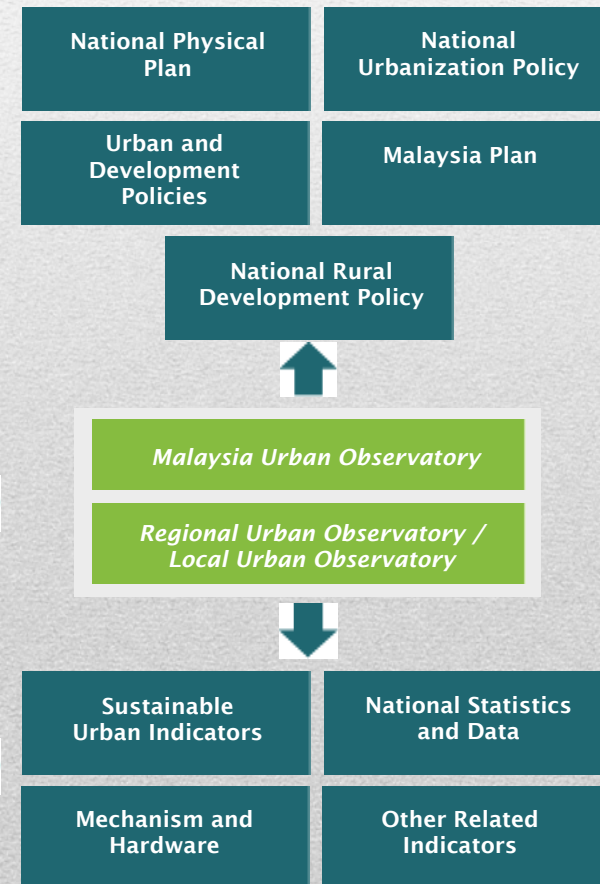

It provides a link to similar Global initiatives that will encourage global knowledge sharing.

GLOBAL INITIATIVES

MALAYSIA'S INITIATIVES

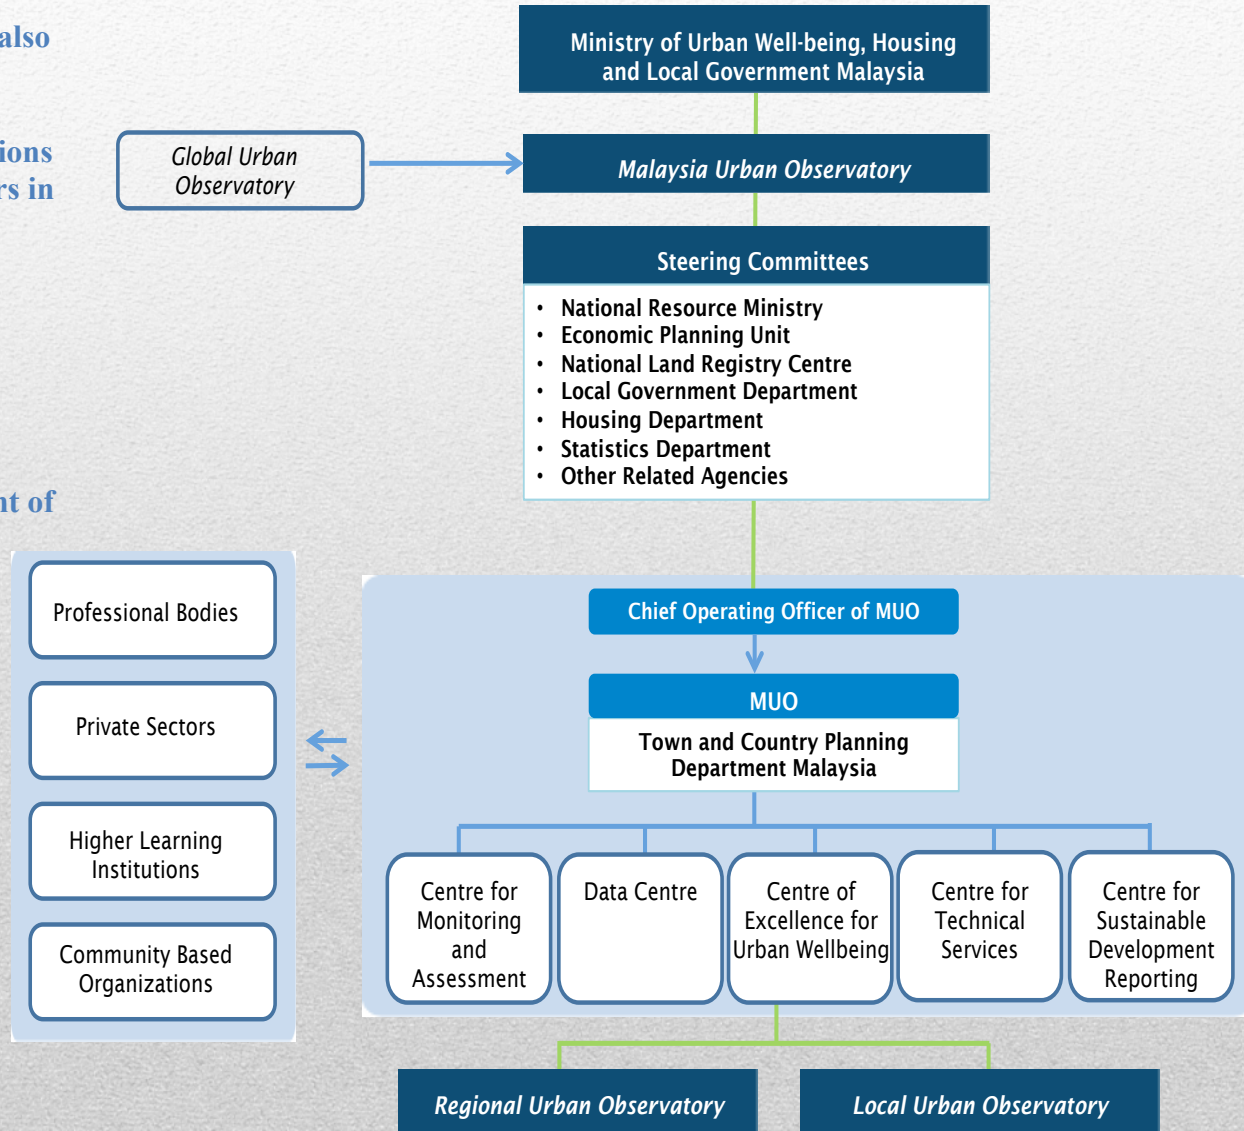

KNOWLEDGE SHARING PLATFORM

Reinventing the 'Urban Observatory' into Strategic Partnership Model

The Malaysia Urban Observatory model also promotes Strategic Partnership:

- International Organizations & Institutions
- Key Data and Information Stakeholders in Malaysia
- Private and Public Sectors
- Professionals and Non-Government Organization

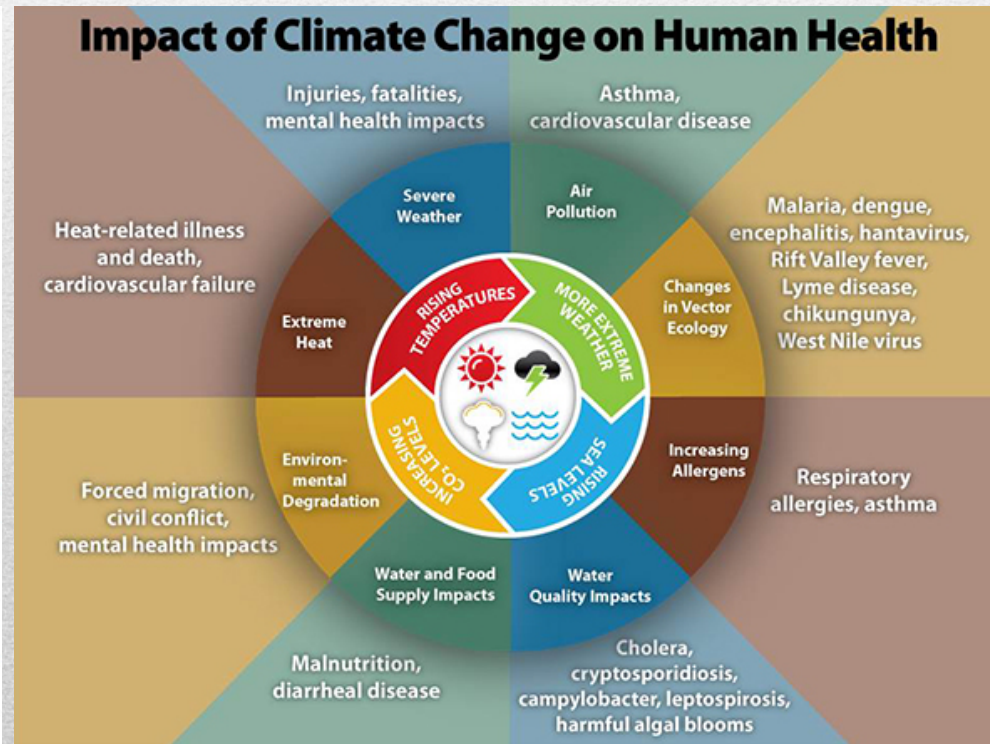

It also provides input into development of national blueprints.

Key Outcome : Health and Well-being

Climate Change Impacts the Human Health

*Changes in climate affect the average weather conditions that we are accustomed to.
Extreme heat, cold and storms are more frequent now affecting everyday health.*

Encourage Walking Accessibility for ALL

- The Concept of Permeability
- The Pedestrian Shed Areas

- **SAFE** : Safety is main issue in accessibility and communities must be assured that its safe to walk
- **CONVENIENCE** : Interconnected streets creates options to get from one place to another
- **WALKABLE** : To emphasize on pedestrian friendly development which prioritize to favour on-foot, bicycle, public transport and finally private transport.
- **BARRIER FREE** : Creating a barrier free environment, where accessibility and reachability to public spaces can be achieved.

Reclaim Road Space

Shared spaces for Public Transport, Cycle Paths and Pedestrian Walkways and Public Spaces

Reduce Conflicts in Pedestrian Priority Areas

Buildings and Podium Car Parks Creates Bustles

Podium Car Parks Creates Pedestrian Conflicts

No Bustles and seamless Pedestrian walkways

AGE PROOF CITY

Making homes and built environment safe and livable for all ages

SMART CITY PLANNING AND DESIGN

Shared spaces, co-locations and optimum use of land

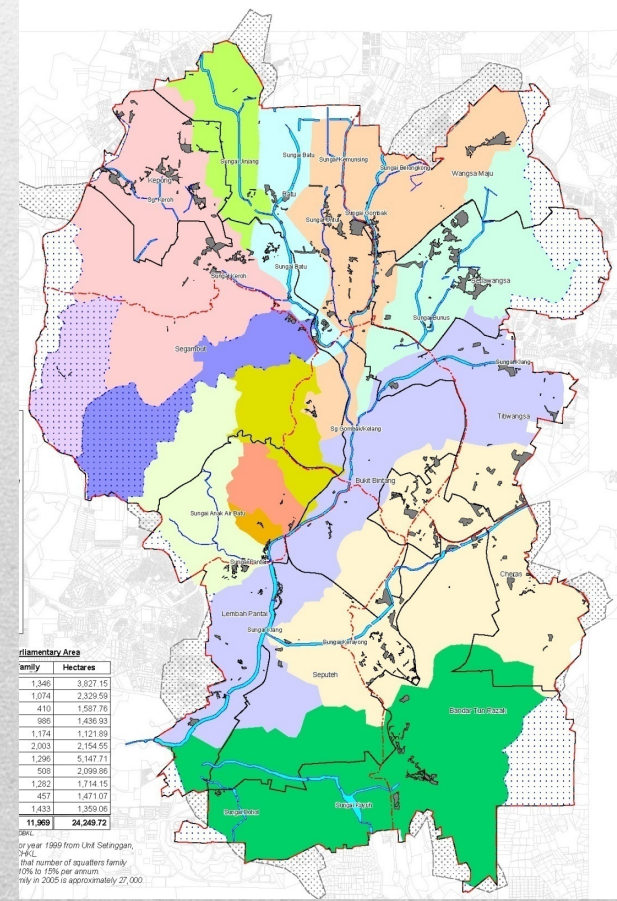

*Pantai 2 Sewage Treatment Plant, Federal Territory of Kuala Lumpur
A new and innovative project to upgrade the existing aerated lagoon sewage treatment. Above spaces used as recreational and communal facility for local residents.*

SMART CITY PLANNING AND DESIGN

MULTIPLE OUTCOMES

KEY FOCUS OF NEW URBAN AGENDA

TO ACHIEVE SUSTAINABLE URBANIZATION
WHAT? WHY? HOW? WHEN? WHOM?

MULTI-SECTORAL
CROSS CUTTING

MULTI-LATERAL
STAKEHOLDERS

COST EFFECTIVENESS

MULTIPLE OUTCOMES

IMPLEMENTING
THE NEW
URBAN AGENDA

SUSTAINABLE DEVELOPMENT GOALS
17 GOALS TO TRANSFORM OUR WORLD

New Urban Agenda and How We Achieve It?

RETHINK . REIMAGINE . INTEGRATE . COLABORATE

- **New Urban Rules and Regulations**, improved urban planning and design.
 - **Inclusive and integrated planning approached** - important at national, regional and local planning levels.
- **A multi-stakeholder process** - key to implementing the New Urban Agenda.
- **Multi-sectoral urban solutions** - that involves various stakeholders has to be identified.
 - **Partnerships and collaboration model** need to be emphasized and City Government play a lead role in this.
- **Relook at City Governance** for good management and maintenance of the city.
